

STATEMENT OF ADDITIONAL INFORMATION
September 22, 2025

SARDIS CREDIT OPPORTUNITIES FUND
Class I Shares (SGSIX) of Beneficial Interest
Principal Executive Offices
4200 Northside Parkway, Building 4, Suite 300, Atlanta, GA 30327
833-442-7381

This Statement of Additional Information (“SAI”) is not a prospectus. This SAI should be read in conjunction with the Class I prospectus of Sardis Credit Opportunities Fund (the “Fund” or the “Trust”), dated September 22, 2025 (the “Prospectus”), as it may be supplemented from time to time. The Prospectus is hereby incorporated by reference into this SAI (legally made a part of this SAI). Capitalized terms used but not defined in this SAI have the meanings given to them in the Prospectus. This SAI does not include all information that a prospective investor should consider before purchasing the Fund’s securities.

You should obtain and read the Prospectus and any related Prospectus supplement prior to purchasing any of the Fund’s securities. A copy of the Prospectus may be obtained without charge by calling the Fund toll-free at 833-442-7381 or by visiting www.sardisfunds.com. Information on the website is not incorporated herein by reference. The Fund’s filings with the SEC also are available to the public on the SEC’s Internet web site at <https://www.sec.gov>. Copies of these filings may be obtained, after paying a duplicating fee, by electronic request at the following E-mail address: publicinfo@sec.gov.

GENERAL INFORMATION AND HISTORY

The Fund is a continuously offered, non-diversified, closed-end management investment company that is operated as an interval fund. The Fund was organized as a Delaware statutory trust on April 23, 2024. The Fund's principal office is located at c/o Sardis Group, LLC, 4200 Northside Parkway, Building 4, Suite 300, Atlanta, GA 30327, and its telephone number is 833-442-7381. The investment objective and principal investment strategies of the Fund, as well as the principal risks associated with the Fund's investment strategies, are set forth in the Prospectus. Certain additional investment information is set forth below. The Fund may issue an unlimited number of shares of beneficial interest. All shares of the Fund have equal rights and privileges. Each share of the Fund is entitled to one vote on all matters as to which shares are entitled to vote. In addition, each share of the Fund is entitled to participate equally with other shares (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares of the Fund are fully paid, non-assessable and fully transferable when issued and have no pre-emptive or conversion rights. Fractional shares have proportionately the same rights, including voting rights, as are provided for a full share.

The Fund currently offers one share class, Class I shares. The Board of Trustees of the Fund (the "Board" or the "Trustees") may classify and reclassify the shares of the Fund into additional classes of shares at a future date.

INVESTMENT OBJECTIVE AND POLICIES

Investment Objective

The Fund's investment objective is to seek total return through current income and capital appreciation.

Fundamental Policies

The Fund's stated fundamental policies, which may only be changed by the affirmative vote of a majority of the outstanding voting securities of the Fund (the shares), are listed below. For the purposes of this SAI, "majority of the outstanding voting securities of the Fund" means the vote, at an annual or special meeting of shareholders, duly called, (a) of 67% or more of the shares present at such meeting, if the holders of more than 50% of the outstanding shares are present or represented by proxy; or (b) of more than 50% of the outstanding shares, whichever is less. The Fund may not:

- (1) Borrow money, except to the extent permitted by the Investment Company Act of 1940, as amended (the "1940 Act") (which currently limits borrowing to no more than 33 1/3% of the value of the Fund's total assets, including the value of the assets purchased with the proceeds of its indebtedness, if any). The Fund may borrow for investment purposes, for temporary liquidity, or to finance repurchases of its shares.
- (2) Issue senior securities, except to the extent permitted by Section 18 of the 1940 Act (which currently limits the issuance of a class of senior securities that is indebtedness to no more than 33 1/3% of the value of the Fund's total assets or, if the class of senior security is stock, to no more than 50% of the value of the Fund's total assets).
- (3) Underwrite securities of other issuers, except insofar as the Fund may be deemed an underwriter under the Securities Act of 1933, as amended (the "Securities Act") in connection with the disposition of its portfolio securities. The Fund may invest in restricted securities (those that must be registered under the Securities Act before they may be offered or sold to the public) to the extent permitted by the 1940 Act.

- (4) Invest more than 25% of the market value of its assets in the securities of companies or entities engaged in any one industry or group of industries other than mortgage-related assets and loans and securities backed by those loans related to the US Consumer. This limitation does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities, as well as to investments in investment companies that primarily invest in such securities.
- (5) Purchase or sell commodities, commodity contracts, including commodity futures contracts, unless acquired as a result of ownership of securities or other investments, except that the Fund may invest in securities or other instruments backed by or linked to commodities, and invest in companies that are engaged in a commodities business or have a significant portion of their assets in commodities, and may invest in commodity pools and other entities that purchase and sell commodities and commodity contracts.
- (6) Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments (but this restriction shall not prevent the Fund from investing in securities of companies engaged in the real estate business or securities or other instruments backed by real estate or mortgages), or commodities or commodity contracts.
- (7) Make loans to others other than in accordance with its investment objectives and policies.

Other Fundamental Policies

- (1) In addition, the Fund has adopted a fundamental policy that it will make quarterly repurchase offers for no less than for 5% of the shares outstanding at net asset value (“NAV”) less any repurchase fee, unless suspended or postponed in accordance with regulatory requirements, and each repurchase pricing shall occur no later than the 14th day after the Repurchase Request Deadline, or the next business day if the 14th is not a business day.

If a restriction on a Fund’s investments is adhered to at the time an investment is made, a subsequent change in the percentage of Fund assets invested in certain securities or other instruments, or change in average duration of a Fund’s investment portfolio, resulting from changes in the value of a Fund’s total assets, will not be considered a violation of the restriction; provided, however, that the asset coverage requirement applicable to borrowings shall be maintained in the manner contemplated by applicable law.

Certain Portfolio Securities and Other Operating Policies

As discussed in the Prospectus, the Fund pursues its investment objective by investing primarily in a wide array of loans and securitized debt instruments. Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in domestic credit instruments and loans. Such instruments will consist of a combination of: (i) residential and commercial mortgage-backed securities (“MBS”), as well as mortgage loans or pools of such loans; (ii) other asset-backed securities (“ABS”), or other instrument secured by financial, physical, and/or intangible asset (e.g., receivables or pools of receivables), and investments in any assets or instruments underlying the foregoing structured/secured obligations; (iii) other structured credit instruments, including but not limited to collateralized mortgage obligations (“CMOs”), collateralized debt obligations (“CDOs”), on an opportunistic basis, collateralized loan obligations (“CLOs”), and various other commercial and consumer loans and participations thereon; and (iv) corporate debt. The Fund may also invest in cash and cash equivalents. The Fund may also gain exposure to these asset classes through treasury futures, interest rate swap futures, and other credit derivatives.

Equity Securities

The value of equity securities depends on business, economic and other factors affecting those issuers. Equity securities fluctuate in value, often based on factors unrelated to the value of the issuer of the securities, and such fluctuations can be pronounced.

The Fund may invest in equity securities without restriction. These investments may include securities of companies with small- to medium-sized market capitalizations, including micro-cap companies and growth stage companies. The securities of certain companies, particularly smaller-capitalization companies, involve higher risks in some respects than do investments in securities of larger companies. For example, prices of small-capitalization and even medium- capitalization stocks are often more volatile than prices of large-capitalization stocks, and the risk of bankruptcy or insolvency of many smaller companies (with the attendant losses to investors) is higher than for larger, “blue-chip” companies. In addition, due to thin trading in the securities of some small- capitalization companies, an investment in those companies may be deemed illiquid.

Fixed-Income Securities

Fixed-income securities include bonds, notes and debentures issued by U.S. and foreign corporations and governments. These securities may pay fixed, variable or floating rates of interest, and may include zero coupon obligations. Fixed-income securities are subject to the risk of the issuer’s inability to meet principal and interest payments on its obligations (i.e., credit risk) and are subject to the risk of price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness or financial condition of the issuer and general market liquidity (i.e., market risk). Certain portfolio securities, such as those with interest rates that fluctuate directly or indirectly based on multiples of a stated index, are designed to be highly sensitive to changes in interest rates and can subject the holders thereof to significant reductions of yield and possible loss of principal.

The Fund may invest in both investment grade and non-investment grade debt securities (commonly referred to as “junk bonds”), including defaulted securities, and unrated securities. Investment grade debt securities are securities that have received a rating from at least one nationally recognized statistical rating organization (each, a “Rating Agency”) in one of the four highest rating categories or, if not rated by any Rating Agency, have been determined by the Adviser to be of comparable quality.

Non-investment grade debt securities, including convertible debt securities, are considered by the Rating Agencies to be predominantly speculative with respect to the issuer’s capacity to pay interest and repay principal. Non-investment grade securities in the lowest rating categories may involve a substantial risk of default or may be in default. Adverse changes in economic conditions or developments regarding the individual issuer are more likely to cause price volatility and weaken the capacity of the issuers of non-investment grade securities to make principal and interest payments than is the case for higher grade securities. In addition, the market for lower grade securities may be thinner and less liquid than the market for higher grade securities.

Investment Companies

The Fund may invest in the securities of other investment companies (including money market funds). Under the 1940 Act, the Fund’s investment in investment companies is limited to, subject to certain exceptions: (i) 3% of the total outstanding voting stock of any one investment company, (ii) 5% of the Fund’s total assets with respect to any one investment company, and (iii) 10% of the Fund’s total assets of investment companies in the aggregate. Investments by the Funds in other investment companies entail a number of risks unique to a fund of funds structure. These risks include the following:

Multiple Layers of Fees. By investing in other investment companies indirectly through the Funds, prospective investors will directly bear the fees and expenses of the Funds’ Advisor and indirectly bear the fees and expenses of other investment

companies and other investment companies' managers as well. As such, this multiple or duplicative layer of fees will increase the cost of investments in the Funds.

Lack of Transparency. The Advisor will not be able to monitor the investment activities of the other investment companies on a continuous basis and the other investment companies may use investment strategies that differ from its past practices and are not fully disclosed to the Advisor and that involve risks that are not anticipated by the Advisor. The Funds have no control over the risks taken by the underlying investment companies in which they invest.

Valuation of Investment Companies. Although the Advisor will attempt to review the valuation procedures used by other investment companies' managers, the Advisor will have little or no means of independently verifying valuations of the Funds' investments in investment companies and valuations of the underlying securities held by other investment companies. As such, the Advisor will rely significantly on valuations of other investment companies and the securities underlying other investment companies that are reported by other investment companies' managers. In the event that such valuations prove to be inaccurate, the net asset value ("NAV") of the Funds could be adversely impacted and an investor could incur a loss of investment in the Funds.

Illiquidity of Investments by and In Other Investment Companies. Other investment companies may invest in securities that are not registered, are subject to legal or other restrictions on transfer, or for which no liquid market exists. The market prices, if any, for such securities tend to be volatile and restricted securities may sell at prices that are lower than similar securities that are not subject to legal restrictions on resale. Further, the Funds may not be able to redeem their interests in other investment companies' securities that it has purchased in a timely manner. If adverse market conditions were to develop during any period in which the Funds are unable to redeem interests in other investment companies, the Funds may suffer losses as a result of this illiquidity. As such, the lack of liquidity and volatility of restricted securities held by other investment companies could adversely affect the value of the other investment companies. Any such losses could adversely affect the value of the Funds' investments and an investor could incur a loss of investment in the Funds.

Lack of Control. Although the Funds and the Advisor will evaluate regularly other investment companies to determine whether their investment programs are consistent with the Funds' investment objective, the Advisor will not have any control over the investments made by other investment companies. Even though other investment companies are subject to certain constraints, the investment advisor to each such investment company may change aspects of their investment strategies at any time. The Advisor will not have the ability to control or influence the composition of the investment portfolio of other investment companies.

Lack of Diversification. There is no requirement that the underlying investments held by other investment companies be diversified. As such, other investment companies' managers may target or concentrate other investment companies' investments in specific markets, sectors, or types of securities. As a result, investments made by other investment companies are subject to greater volatility as a result of this concentration than if the other investment companies had non-concentrated and diversified portfolios of investments. Thus, the Funds' portfolios (and by extension the value of an investment in the Funds) may therefore be subject to greater risk than the portfolio of a similar fund with investments in diversified investment companies.

Use of Leverage. The other investment companies may utilize leverage (i.e., borrowing) to acquire their underlying portfolio investments. When other investment companies borrow money or otherwise leverage their portfolio of investments, doing so may exaggerate changes in the NAV of the shares of the other investment companies and in the return on the other investment companies' investments. Borrowing will also cost other investment companies interest expense and other fees. As such, the value of the Funds' investments in other investment companies may be more volatile and all other risks (including the risk of loss of an investment in other investment companies) tend to be compounded or magnified. As a result, any losses suffered by other investment companies as a result of their use of leverage could adversely affect the value of the Fund's investments and an investor could incur a loss of investment in the Funds.

Foreign Securities

The Fund may invest, directly or indirectly, in non-U.S. infrastructure companies and other foreign securities. Purchases of foreign securities entail certain risks. For example, there may be less information publicly available about a foreign company than about a U.S. company, and foreign companies generally are not subject to accounting, auditing and financial reporting standards and practices comparable to those in the U.S. Other risks associated with investments in foreign securities include changes in restrictions on foreign currency transactions and rates of exchanges, changes in the administrations or economic and monetary policies of foreign governments, the imposition of exchange control regulations, the possibility of expropriation decrees and other adverse foreign governmental action, the imposition of foreign taxes, less liquid markets, less government supervision of exchanges, brokers and issuers, difficulty in enforcing contractual obligations, delays in settlement of securities transactions and greater price volatility. In addition, investing in foreign securities will generally result in higher commissions than investing in similar domestic securities.

Emerging Markets Securities

The Fund may invest, directly or indirectly, in issuers domiciled in emerging markets. Investing in emerging market securities imposes risks different from, or greater than, risks of investing in foreign developed countries. These risks include (i) the smaller market capitalization of securities markets, which may suffer periods of relative illiquidity, (ii) significant price volatility, (iii) restrictions on foreign investment, and (iv) possible repatriation of investment income and capital. In addition, foreign investors may be required to register the proceeds of sales, and future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization, or the creation of government monopolies. The currencies of emerging market countries may experience significant declines against the U.S. dollar, and devaluation may occur subsequent to investments in these currencies by the Fund. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of certain emerging market countries.

Certain emerging markets limit, or require governmental approval prior to, investments by foreign persons. Repatriation of investment income and capital from certain emerging markets is subject to certain governmental consents. Even where there is no outright restriction on repatriation of capital, the mechanics of repatriation may affect the operation of the Fund.

Additional risks of emerging markets securities may include (i) greater social, economic and political uncertainty and instability, (ii) more substantial governmental involvement in the economy, (iii) less governmental supervision and regulation, (iv) the unavailability of currency hedging technique, (v) companies that are newly organized and small, (vi) differences in auditing and financial reporting standards, which may result in unavailability of material information about issuers, and (vii) less developed legal systems. In addition, emerging securities markets may have different clearance and settlement procedures, which may be unable to keep pace with the volume of securities transactions or otherwise make it difficult to engage in such transactions. Settlement problems may cause the Fund to miss attractive investment opportunities, hold a portion of its assets in cash pending investment, or be delayed in disposing of a portfolio security. Such a delay could result in possible liability to a purchaser of the security.

Money Market Instruments

The Fund may invest, for defensive or diversification purposes or otherwise, some or all of its assets in high quality fixed-income securities, money market instruments, and money market mutual funds, or hold cash or cash equivalents in such amounts as the Fund or the Adviser deems appropriate under the circumstances. Pending allocation of the offering proceeds of this offering and thereafter, from time to time, the Fund also may invest in these instruments and other investment vehicles. Money market instruments are high quality, short-term fixed-income obligations, which generally have remaining maturities of one year or less, and may include U.S. Government securities, commercial paper, certificates of deposit and bankers' acceptances issued by domestic branches of U.S. banks that are members of the Federal Deposit Insurance Corporation (the "FDIC"), and repurchase agreements.

Special Investment Techniques

The Fund may use a variety of special investment techniques as more fully discussed below to hedge a portion of the Fund's investment portfolio against various risks or other factors that generally affect the values of securities. The Fund may also use these techniques for non-hedging purposes in pursuing its investment objective. These techniques may involve the use of derivative transactions. The techniques the Fund may employ may change over time as new instruments and techniques are introduced or as a result of regulatory developments. Certain of the special investment techniques that the Fund may use are speculative and involve a high degree of risk, particularly when used for non-hedging purposes. It is possible that any hedging transaction may not perform as anticipated and that the Fund may suffer losses as a result of its hedging activities.

Derivatives

The Fund may engage in transactions involving options and futures and other derivative financial instruments. Derivatives can be volatile and involve various types and degrees of risk. By using derivatives, the Fund may be permitted to increase or decrease the level of risk, or change the character of the risk, to which the portfolio is exposed.

A small investment in derivatives could have a substantial impact on the Fund's performance. The market for many derivatives is, or suddenly can become, illiquid. Changes in liquidity may result in significant and rapid changes in the prices for derivatives. If the Fund were to invest in derivatives at an inopportune time, or the Adviser evaluates market conditions incorrectly, the Fund's derivative investment could negatively impact the Fund's return, or result in a loss. In addition, the Fund could experience a loss if its derivatives were poorly correlated with its other investments, or if the Fund were unable to liquidate its position because of an illiquid secondary market.

Options and Futures. The Fund may engage in the use of options and futures contracts, so-called "synthetic" options, including options on baskets of specific securities, or other derivative instruments written by broker-dealers or other financial intermediaries. These transactions may be effected on securities exchanges or in the over-the-counter ("OTC") market, or they may be negotiated directly with counterparties. In cases where instruments are purchased OTC or negotiated directly with counterparties, the Fund is subject to the risk that the counterparty will be unable or unwilling to perform its obligations under the contract. These transactions may also be illiquid and, if so, it might be difficult to close out a position.

The Fund may purchase call and put options on specific securities. The Fund may also write and sell covered or uncovered call options for both hedging purposes and to pursue the Fund's investment objectives. A put option gives the purchaser of the option the right to sell, and obligates the writer to buy, the underlying security at a stated price at any time before the option expires. Similarly, a call option gives the purchaser of the option the right to buy, and obligates the writer to sell, the underlying security at a stated price at any time before the option expires.

In a covered call option, the Fund owns the underlying security. The sale of such an option exposes the Fund to a potential loss of opportunity to realize appreciation in the market price of the underlying security during the term of the option. Using covered call options might expose the Fund to other risks, as well. For example, the Fund might be required to continue holding a security that the Fund might otherwise have sold to protect against depreciation in the market price of the security.

When writing options, the Fund may close its position by purchasing an option on the same security with the same exercise price and expiration date as the option that it has previously written on the security. If the amount paid to purchase an option is less or more than the amount received from the sale, the Fund will, accordingly, realize a profit or loss. To close out a position as a purchaser of an option, the Fund would liquidate the position by selling the option previously purchased.

The use of derivatives that are subject to regulation by the Commodity Futures Trading Commission (the "CFTC") by the Fund could cause the Fund to be a commodity pool, which would require the Fund to comply with certain rules of the CFTC. However, the Fund intends to conduct its operations to avoid regulation as a commodity pool. The CFTC eliminated

limitations on futures trading by certain regulated entities, including registered investment companies, and consequently registered investment companies may engage in unlimited futures transactions and options thereon provided that the investment manager to such company claims an exclusion from regulation as a commodity pool operator. If the Fund were to use derivatives subject to regulation by the CFTC in connection with its management of the Fund, the Adviser will claim such an exclusion from registration as a commodity pool operator under the Commodity Exchange Act (“CEA”). Therefore, it would not be subject to the registration and regulatory requirements of the CEA.

Successful use of futures also is subject to the Adviser’s ability to correctly predict movements in the relevant market. To the extent that a transaction is entered into for hedging purposes, successful use is also subject to the Adviser’s ability to evaluate the appropriate correlation between the transaction being hedged and the price movements of the futures contract.

The Fund may also purchase and sell stock index futures contracts. A stock index futures contract obligates the Fund to pay or receive an amount of cash equal to a fixed dollar amount specified in the futures contract, multiplied by the difference between the settlement price of the contract on the contract’s last trading day, and the value of the index based on the stock prices of the securities that comprise it at the opening of trading in those securities on the next business day. The Fund may purchase and sell interest rate futures contracts, which represent obligations to purchase or sell an amount of a specific debt security at a future date at a specific price.

Options on Securities Indexes. The Fund may purchase and sell call and put options on stock indexes listed on national securities exchanges or traded in the OTC market for hedging or speculative purposes. A stock index fluctuates with changes in the market values of the stocks included in the index. Accordingly, successful use of options on stock indexes will be subject to the Adviser’s ability to correctly evaluate movements in the stock market generally, or of a particular industry or market segment.

Swap Agreements. The Fund may enter into a variety of swap agreements, including equity, interest rate, and index swap agreements. The Fund is not limited to any particular form of swap agreement if the Adviser determines that other forms are consistent with the Fund’s investment objectives and policies. Swap agreements are contracts entered into by two parties (primarily institutional investors) for periods ranging from a few weeks to more than a year. In a standard swap transaction, the parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments, which may be adjusted for an interest factor. The gross returns to be exchanged or “swapped” between the parties are generally calculated with respect to a “notional amount,” *i.e.*, the return on or increase in value of a particular dollar amount invested at a particular interest rate, in a particular foreign currency, or in a “basket” of securities representing a particular index. Additional forms of swap agreements include (i) interest rate caps, under which, in return for a premium, one party agrees to make payments to the other to the extent interest rates exceed a specified rate or “cap;” (ii) interest rate floors, under which, in return for a premium, one party agrees to make payments to the other to the extent interest rates fall below a specified level or “floor;” and (iii) interest rate collars, under which a party sells a cap and purchases a floor (or vice versa) in an attempt to protect itself against interest rate movements exceeding certain minimum or maximum levels.

Generally, the Fund’s obligations (or rights) under a swap agreement will be equal only to the net amount to be paid or received under the agreement, based on the relative values of the positions held by the parties. The risk of loss is limited to the net amount of interest payments that a party is contractually required to make. As such, if the counterparty to a swap defaults, the Fund’s risk of loss consists of the net amount of payments that it is entitled to receive.

Government Regulation of Derivatives. It is possible that government regulation of various types of derivative instruments, including futures and swap agreements, may limit or prevent the Fund from using such instruments as a part of its investment strategy, and could ultimately prevent the Fund from being able to achieve its investment objective. It is impossible to predict fully the effects of legislation and regulation in this area, but the effects could be substantial and adverse.

The futures markets are subject to comprehensive statutes, regulations, and margin requirements. The SEC, the CFTC and the exchanges are authorized to take extraordinary actions in the event of a market emergency, including, for example, the implementation or reduction of speculative position limits, the implementation of higher margin requirements, the establishment of daily price limits and the suspension of trading.

The regulation of swaps and futures transactions in the U.S., the European Union and other jurisdictions is a rapidly changing area of law and is subject to modification by government and judicial action. There is a possibility of future regulatory changes altering, perhaps to a material extent, the nature of an investment in the Fund or the ability of the Fund to continue to implement its investment strategies.

Under recently adopted rules and regulations, transactions in some types of swaps (including interest rate swaps and credit default swaps on North American and European indices) are required to be centrally cleared, and additional types of swaps may be required to be centrally cleared in the future. In a transaction involving those swaps (“cleared derivatives”), the Fund’s counterparty is a clearing house, rather than a bank or broker. Since the Fund is not a member of a clearing house and only clearing members can participate directly in the clearing house, the Fund will hold cleared derivatives through accounts at clearing members. In cleared derivatives transactions, the Fund will make payments (including margin payments) to and receive payments from a clearing house through its accounts at clearing members. Clearing members guarantee performance of their clients’ obligations to the clearing house.

In addition, U.S. regulators, the European Union and certain other jurisdictions have adopted minimum margin and capital requirements for uncleared OTC derivatives transactions. It is expected that these regulations will have a material impact on the Fund’s use of uncleared derivatives. These rules will impose minimum margin requirements on derivatives transactions between the Fund and its swap counterparties and may increase the amount of margin the Fund is required to provide. They will impose regulatory requirements on the timing of transferring margin, which may accelerate the Fund’s current margin process. They will also effectively require changes to typical derivatives margin documentation. Such requirements could increase the amount of margin the Fund needs to provide in connection with uncleared derivatives transactions and, therefore, make such transactions more expensive.

The SEC has also issued a rule under the 1940 Act providing for the regulation of registered investment companies’ use of derivatives and certain related instruments. The ultimate impact, if any, of possible regulation remains unclear, but the rule could, among other things, restrict the Fund’s ability to engage in derivatives transactions and/or increase the costs of such derivatives transactions such that the Fund may be unable to implement its investment strategy. These and other new rules and regulations could, among other things, further restrict the Fund’s ability to engage in, or increase the cost to the Fund of, derivatives transactions, for example, by making some types of derivatives no longer available to the Fund, increasing margin or capital requirements, or otherwise limiting liquidity or increasing transaction costs. The implementation of the clearing requirement has increased the costs of derivatives transactions for the Fund, since the Fund has to pay fees to its clearing members and is typically required to post more margin for cleared derivatives than it has historically posted for bilateral derivatives. The costs of derivatives transactions are expected to increase further as clearing members raise their fees to cover the costs of additional capital requirements and other regulatory changes applicable to the clearing members. These regulations are new and evolving, so their potential impact on the Fund and the financial system are not yet known. While the new regulations and central clearing of some derivatives transactions are designed to reduce systemic risk (i.e., the risk that the interdependence of large derivatives dealers could cause them to suffer liquidity, solvency or other challenges simultaneously), there is no assurance that the new mechanisms will achieve that result.

Leverage

The Fund may engage in leverage through (i) borrowings, (ii) swap agreements, options or other derivative instruments, (iii) use of short sales, or (iv) a combination of these methods. The financing entity or counterparty on any swap, option or other derivative instrument may be any entity or institution which an investment manager determines to be creditworthy.

As a result of this leverage, a relatively small movement in the spread relationship between the securities and commodities interests the Fund indirectly owns and those which it has indirectly sold short may result in substantial losses.

Short Sales

The Fund and the Underlying Funds may engage in short selling. A short sale is a transaction in which a party sells a security it does not own or have the right to acquire (or that it owns but does not wish to deliver) in anticipation that the market price of that security will decline. When a party makes a short sale, the broker-dealer through which the short sale is made must borrow the security sold short and deliver it to the party purchasing the security. The party is required to make a margin deposit in connection with such short sales; the party may have to pay a fee to borrow particular securities and will often be obligated to pay over any dividends and accrued interest on borrowed securities. If the price of the security sold short increases between the time of the short sale and the time the party covers the short position, the party will incur a loss; conversely, if the price declines, the party will realize a capital gain. Any gain will be decreased, and any loss increased, by the transaction costs described above.

When-Issued, Delayed Delivery and Forward Commitment Securities

To reduce the risk of changes in securities prices and interest rates, the Fund may purchase securities on a forward commitment, when-issued or delayed delivery basis. This means that delivery and payment occur a number of days after the date of the commitment to purchase. The payment obligation and the interest rate receivable with respect to such purchases are determined when the Fund enters into the commitment, but the Fund does not make payment until it receives delivery from the counterparty. The Fund may, if it is deemed advisable, sell the securities after it commits to a purchase but before delivery and settlement takes place.

Securities purchased on a forward commitment, when-issued or delayed delivery basis are subject to changes in value based upon the public's perception of the creditworthiness of the issuer and changes (either real or anticipated) in the level of interest rates. Purchasing securities on a when-issued or delayed delivery basis can present the risk that the yield available in the market when the delivery takes place may be higher than that obtained in the transaction itself. Purchasing securities on a forward commitment, when-issued or delayed delivery basis when the Fund is fully, or almost fully invested, results in a form of leverage and may cause greater fluctuation in the value of the net assets of the Fund. In addition, there is a risk that securities purchased on a when-issued or delayed delivery basis may not be delivered, and that the purchaser of securities sold by the Fund on a forward basis will not honor its purchase obligation. In such cases, the Fund may incur a loss.

Credit Facilities

The Fund may enter into secured bank lines of credit (the "Credit Facilities") for the purpose of investment purchases and other liquidity requirements subject to the limitations of the 1940 Act for borrowings. As collateral for the Credit Facilities, the Fund grants the Banks a first position security interest in and lien on securities of any kind or description held by the Fund in the collateral accounts.

Market Volatility

The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. The value of a security or other instrument may decline due to changes in general market conditions, economic trends or events that are not specifically related to the issuer of the security or other instrument, or factors that affect a particular issuer or issuers, country, group of countries, region, market, industry, group of industries, sector or asset class. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates generally do not have the same impact on all types of securities and instruments.

Operational and Cybersecurity Risk

The Fund, its service providers and other market participants increasingly depend on complex information technology and communications systems to conduct business functions. These systems are subject to various threats or risks that could adversely affect the Fund and its shareholders.

For instance, unauthorized third parties may attempt to improperly access, modify, disrupt the operations of or prevent access to these systems or data within them, whether systems of the Fund, the Fund's service providers, counterparties, or other market participants. Power or communication outages, acts of God, information technology equipment malfunctions, operational errors (both human and systematic) and inaccuracies within software or data processing systems may also disrupt business operations or impact critical data.

With the increased use of technologies such as the Internet and the dependence on computer systems to perform necessary business functions, investment companies such as the Fund and its service providers may be prone to operational and information security risks resulting from cyber-attacks. In general, cyber-attacks result from deliberate attacks but unintentional events may have effects similar to those caused by cyber-attacks. Cyber-attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information and causing operational disruption. Successful cyber-attacks against, or security breakdowns of, the Fund or its advisers, custodians, fund accountant, fund administrator, transfer agent, pricing vendors and/or other third party service providers may adversely impact the Fund and its shareholders. For instance, cyber-attacks may interfere with the processing of shareholder transactions, cause the release of private shareholder information or confidential Fund information, impede trading, cause reputational damage, and subject the Fund to regulatory fines, penalties or financial losses, reimbursement or other compensation costs, and/or additional compliance costs. The Fund also may incur substantial costs for cybersecurity risk management in order to guard against any cyber incidents in the future. While the Fund or its service providers may have established business continuity plans and systems designed to guard against such cyber-attacks or adverse effects of such attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified, in large part because different unknown threats may emerge in the future. Similar types of cybersecurity risks also are present for issuers of securities in which the Fund invests, which could result in material adverse consequences for such issuers, and may cause the Fund's investment in such securities to lose value. In addition, cyber-attacks involving a counterparty to the Fund could affect such a counterparty's ability to meet its obligations to the Fund, which may result in losses to the Fund and its shareholders. The Fund cannot directly control any cyber-security plans or systems put in place by its service providers, Fund counterparties, issuers in which the Fund invests or securities markets and exchanges.

Portfolio Turnover

The frequency and amount of portfolio purchases and sales (known as the "portfolio turnover rate") will vary from year to year. The portfolio turnover rate is not expected to exceed 100%, but may vary greatly from year to year and will not be a limiting factor when the Adviser deems portfolio changes appropriate. The Fund may engage in short-term trading strategies, and securities may be sold without regard to the length of time held when, in the opinion of the Adviser, investment considerations warrant such action. These policies may have the effect of increasing the annual rate of portfolio turnover of the Fund. Further, the underlying funds in which the Fund invests may experience high rates of portfolio turnover. High rates of portfolio turnover in the underlying funds may negatively impact their returns and, thus, negatively impact the returns of the Fund. Higher rates of portfolio turnover would likely result in higher brokerage commissions and may generate short-term capital gains taxable as ordinary income.

Non-Diversified Status

The Fund does not intend to meet the diversification requirements of the 1940 Act as in effect from time to time. Because the Fund is "non-diversified" under the 1940 Act, it is subject only to certain federal tax diversification requirements. Under

federal tax laws, the Fund may, with respect to 50% of its total assets, invest up to 25% of its total assets in the securities of any issuer. With respect to the remaining 50% of the Fund's total assets, (i) the Fund may not invest more than 5% of its total assets in the securities of any one issuer, and (ii) the Fund may not acquire more than 10% of the outstanding voting securities of any one issuer. These tests apply at the end of each quarter of the taxable year and are subject to certain conditions and limitations under the Code. These tests do not apply to investments in United States Government Securities and regulated investment companies. Because the Fund is "non-diversified," it can invest a greater percentage of its assets in a single issuer or a group of issuers, and, as a result, may be subject to greater credit, market, and other risks than a diversified fund. The poor performance by a single issuer may have a greater impact on the performance of a non-diversified fund. A non-diversified fund's shares tend to be more volatile than shares of a diversified fund and are more susceptible to the risks of focusing investments in a small number of issuers or industries, and the risks of a single economic, political or regulatory occurrence.

REPURCHASES AND TRANSFERS OF SHARES

Repurchase Offers

The Board has adopted a resolution setting forth the Fund's fundamental policy that it will conduct quarterly repurchase offers (the "Repurchase Offer Policy"). The Repurchase Offer Policy sets the interval between each repurchase offer at one quarter and provides that the Fund shall conduct a repurchase offer each quarter (unless suspended or postponed in accordance with regulatory requirements). The Repurchase Offer Policy also provides that the repurchase pricing shall occur not later than the 14th day after the Repurchase Request Deadline or the next business day if the 14th day is not a business day. The Fund's Repurchase Offer Policy is fundamental and cannot be changed without shareholder approval. The Fund may, for the purpose of paying for repurchased shares, be required to liquidate portfolio holdings earlier than the Adviser would otherwise have liquidated these holdings. Such liquidations may result in losses, and may increase the Fund's portfolio turnover.

Repurchase Offer Policy Summary of Terms

1. The Fund will make repurchase offers at periodic intervals pursuant to Rule 23c-3 under the 1940 Act, as that rule may be amended from time to time.
2. The repurchase offers will be made in March, June, September, and December of each year.
3. The Fund must receive repurchase requests submitted by shareholders in response to the Fund's repurchase offer no less than 21 days and more than 42 of the date the repurchase offer is made (or the preceding business day if the New York Stock Exchange is closed on that day) (the "Repurchase Request Deadline").
4. The maximum time between the Repurchase Request Deadline and the next date on which the Fund determines the net asset value applicable to the purchase of shares (the "Repurchase Pricing Date") is 14 calendar days (or the next business day if the fourteenth day is not a business day).

The Fund may not condition a repurchase offer upon the tender of any minimum amount of shares. The Fund may deduct from the repurchase proceeds only a repurchase fee that is paid to the Fund and that is reasonably intended to compensate the Fund for expenses directly related to the repurchase. The repurchase fee may not exceed 2.00% of the proceeds. Generally, the Fund does not charge a repurchase fee. The Fund may rely on Rule 23c-3 only so long as the Board satisfies the fund governance standards defined in Rule 0-1(a)(7) under the 1940 Act.

Procedures: All periodic repurchase offers must comply with the following procedures:

Repurchase Offer Amount: Each quarter, the Fund may offer to repurchase at least 5% and no more than 25% of the outstanding shares of the Fund on the Repurchase Request Deadline (the “Repurchase Offer Amount”). The Board shall determine the quarterly Repurchase Offer Amount.

Shareholder Notification: No less than 21 days and more than 42 before each Repurchase Request Deadline, the Fund shall send to each shareholder of record and to each beneficial owner of the shares that are the subject of the repurchase offer a notification (“Shareholder Notification”) providing the following information:

1. A statement that the Fund is offering to repurchase its shares from shareholders at net asset value;
2. Any fees applicable to such repurchase, if any;
3. The Repurchase Offer Amount;
4. The dates of the Repurchase Request Deadline, Repurchase Pricing Date, and the date by which the Fund must pay shareholders for any shares repurchased (which shall not be more than seven days after the Repurchase Pricing Date) (the “Repurchase Payment Deadline”);
5. The risk of fluctuation in net asset value between the Repurchase Request Deadline and the Repurchase Pricing Date, and the possibility that the Fund may use an earlier Repurchase Pricing Date;
6. The procedures for shareholders to request repurchase of their shares and the right of shareholders to withdraw or modify their repurchase requests until the Repurchase Request Deadline;
7. The procedures under which the Fund may repurchase such shares on a pro rata basis if shareholders tender more than the Repurchase Offer Amount;
8. The circumstances in which the Fund may suspend or postpone a repurchase offer;
9. The net asset value of the shares computed no more than seven days before the date of the notification and the means by which shareholders may ascertain the net asset value thereafter; and
10. The market price, if any, of the shares on the date on which such net asset value was computed, and the means by which shareholders may ascertain the market price thereafter.

The Fund must file Form N-23c-3 (“Notification of Repurchase Offer”) and three copies of the Shareholder Notification with the SEC within three business days after sending the notification to shareholders.

Notification of Beneficial Owners: Where the Fund knows that shares subject to a repurchase offer are held of record by a broker, dealer, voting trustee, bank, association or other entity that exercises fiduciary powers in nominee name or otherwise, the Fund must follow the procedures for transmitting materials to beneficial owners of securities that are set forth in Rule 14a-13 under the Securities Exchange Act of 1934, as amended (the “1934 Act”).

Repurchase Requests: Repurchase requests must be submitted by shareholders by the Repurchase Request Deadline. The Fund shall permit repurchase requests to be withdrawn or modified at any time until the Repurchase Request Deadline, but shall not permit repurchase requests to be withdrawn or modified after the Repurchase Request Deadline.

Repurchase Requests in Excess of the Repurchase Offer Amount: If shareholders tender more than the Repurchase Offer Amount, the Fund may, but is not required to, repurchase an additional amount of shares not to exceed 2.00% of the outstanding shares of the Fund on the Repurchase Request Deadline. If the Fund determines not to repurchase more than the Repurchase Offer Amount, or if shareholders tender shares in an amount exceeding the Repurchase Offer Amount plus 2.00% of the outstanding shares on the Repurchase Request Deadline, the Fund shall repurchase the shares tendered on a pro rata basis. This policy, however, does not prohibit the Fund from:

1. Accepting all repurchase requests by persons who own, beneficially or of record, an aggregate of less than 100 shares and who tender all of their shares for repurchase, before prorating shares tendered by others, or
2. Accepting by lot shares tendered by shareholders who request repurchase of all shares held by them and who, when tendering their shares, elect to have either (i) all or none or (ii) at least a minimum amount or none accepted, if the Fund first accepts all shares tendered by shareholders who do not make this election.

Suspension or Postponement of Repurchase Offers: The Fund shall not suspend or postpone a repurchase offer except pursuant to a vote of a majority of the Board, including a majority of the Trustees who are not interested persons of the Fund, and only:

1. If the repurchase would cause the Fund to lose its status as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code");
2. If the repurchase would cause the shares that are the subject of the offer that are either listed on a national securities exchange or quoted in an inter-dealer quotation system of a national securities association to be neither listed on any national securities exchange nor quoted on any inter-dealer quotation system of a national securities association;
3. For any period during which the New York Stock Exchange or any other market in which the securities owned by the Fund are principally traded is closed, other than customary week-end and holiday closings, or during which trading in such market is restricted;
4. For any period during which an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable, or during which it is not reasonably practicable for the Fund fairly to determine the value of its net assets; or
5. For such other periods as the SEC may by order permit for the protection of shareholders of the Fund.

If a repurchase offer is suspended or postponed, the Fund shall provide notice to shareholders of such suspension or postponement. If the Fund renews the repurchase offer, the Fund shall send a new Shareholder Notification to shareholders.

Computing Net Asset Value: The Fund's current NAV per share shall be computed no less frequently than weekly, and daily on the five business days preceding a Repurchase Request Deadline, on such days and at such specific time or times during the day as set by the Board. Currently, the Board has determined that the Fund's NAV shall be determined daily following the close of the New York Stock Exchange. The Fund's NAV need not be calculated on:

1. Days on which changes in the value of the Fund's portfolio securities will not materially affect the current NAV of the shares;
2. Days during which no order to purchase shares is received, other than days when the NAV would otherwise be computed; or
3. Customary national, local, and regional business holidays described or listed in the Prospectus.

Liquidity Requirements: From the time the Fund sends a Shareholder Notification to shareholders until the Repurchase Pricing Date, a percentage of the Fund's assets equal to at least 100% of the Repurchase Offer Amount (the "Liquidity Amount") shall consist of assets that individually can be sold or disposed of in the ordinary course of business, at approximately the price at which the Fund has valued the investment, within a period equal to the period between a Repurchase Request Deadline and the Repurchase Payment Deadline, or of assets that mature by the next Repurchase Payment Deadline. This requirement means that individual assets must be salable under these circumstances. It does not require that the entire Liquidity Amount must be salable. In the event that the Fund's assets fail to comply with this requirement, the Board shall cause the Fund to take such action as it deems appropriate to ensure compliance.

Liquidity Policy: The Board may delegate day-to-day responsibility for evaluating liquidity of specific assets to the Fund's investment adviser, but shall continue to be responsible for monitoring the investment adviser's performance of its duties and the composition of the portfolio. Accordingly, the Board has approved this policy that is reasonably designed to ensure that the Fund's portfolio assets are sufficiently liquid so that the Fund can comply with its fundamental policy on repurchases and comply with the liquidity requirements in the preceding paragraph.

1. In evaluating liquidity, the following factors are relevant, but not necessarily determinative:
 - a) The frequency of trades and quotes for the security.
 - b) The number of dealers willing to purchase or sell the security and the number of potential purchasers.
 - c) Dealer undertakings to make a market in the security.
 - d) The nature of the marketplace trades (e.g., the time needed to dispose of the security, the method of soliciting offer and the mechanics of transfer).
 - e) The size of the Fund's holdings of a given security in relation to the total amount of outstanding of such security or to the average trading volume for the security.
2. If market developments impair the liquidity of a security, the investment adviser should review the advisability of retaining the security in the portfolio. The investment adviser should report to the basis for its determination to retain a security at the next Board meeting.
3. The Board shall review the overall composition and liquidity of the Fund's portfolio on a quarterly basis.

4. These procedures may be modified as the Board deems necessary.

Registration Statement Disclosure: The Fund's registration statement must disclose its intention to make or consider making such repurchase offers.

Annual Report Disclosure: The Fund shall include in its annual report to shareholders the following:

1. Disclosure of its fundamental policy regarding periodic repurchase offers.
2. Disclosure regarding repurchase offers by the Fund during the period covered by the annual report, which disclosure shall include:
 - a. the number of repurchase offers,
 - b. the repurchase offer amount and the amount tendered in each repurchase offer,
 - c. and the extent to which in any repurchase offer the Fund repurchased stock pursuant to the procedures in paragraph (b)(5) of this section.

Advertising: The Fund, or any underwriter for the Fund, must comply, as if the Fund were an open end company, with the provisions of Section 24(b) of the 1940 Act and the rules thereunder and file, if necessary, with the Financial Industry Regulatory Authority, Inc. ("FINRA") or the SEC any advertisement, pamphlet, circular, form letter, or other sales literature addressed to or intended for distribution to prospective investors.

Involuntary Repurchases

The Fund may, at any time, repurchase at net asset value shares held by a shareholder, or any person acquiring shares from or through a shareholder, if: the shares have been transferred or have vested in any person other than by operation of law as the result of the death, dissolution, bankruptcy or incompetency of a shareholder; ownership of the shares by the shareholder or other person will cause the Fund to be in violation of, or require registration of the shares, or subject the Fund to additional registration or regulation under, the securities, commodities or other laws of the United States or any other relevant jurisdiction; continued ownership of the shares may be harmful or injurious to the business or reputation of the Fund or may subject the Fund or any shareholders to an undue risk of adverse tax or other fiscal consequences; the shareholder owns shares having an aggregate net asset value less than an amount determined from time to time by the Trustees; or it would be in the interests of the Fund, as determined by the Board, for the Fund to repurchase the Shares. The Adviser may tender for repurchase in connection with any repurchase offer made by the Fund Shares that it holds in its capacity as a shareholder. Any such involuntary repurchase will be made pursuant to Rule 23c-2 under the 1940 Act and the Trust's Agreement and Declaration of Trust.

Transfers of Shares

No person may become a substituted shareholder without the written consent of the Board, which consent may be withheld for any reason in the Board's sole and absolute discretion. Shares may be transferred only (i) by operation of law pursuant to the death, bankruptcy, insolvency or dissolution of a shareholder or (ii) with the written consent of the Board, which may be withheld in its sole and absolute discretion. The Board may, in its discretion, delegate to the Adviser its authority to consent to transfers of shares. Each shareholder and transferee is required to pay all expenses, including attorneys' and accountants' fees, incurred by the Fund in connection with such transfer.

MANAGEMENT OF THE FUND

The Board has overall responsibility to manage and control the business affairs of the Fund, including the complete and exclusive authority to oversee and to establish policies regarding the management, conduct and operation of the Fund's business. The Board exercises the same powers, authority and responsibilities on behalf of the Fund as are customarily exercised by the board of directors of a registered investment company organized as a corporation. The business of the Trust is managed under the direction of the Board in accordance with the Agreement and Declaration of Trust and the Trust's By-laws (the "Governing Documents"), each as amended from time to time, which have been filed with the SEC and are available upon request. The Board consists of three individuals, all of whom are not deemed to be "interested persons" (as defined under the 1940 Act) of the Trust, the Adviser, or the Trust's distributor ("Independent Trustees"). Pursuant to the Governing Documents of the Trust, the Trustees shall elect officers including a President, a Secretary, a Treasurer, a Principal Executive Officer, and a Principal Accounting Officer. The Board retains the power to conduct, operate and carry on the business of the Trust and has the power to incur and pay any expenses, which, in the opinion of the Board, are necessary or incidental to carry out any of the Trust's purposes. The Trustees, officers, employees and agents of the Trust, when acting in such capacities, shall not be subject to any personal liability except for his or her own bad faith, willful misfeasance, gross negligence or reckless disregard of his or her duties.

Board Leadership Structure

Mary Moran Zeven is the Chairwoman of the Board. Under the Trust's Agreement and Declaration of Trust and By-Laws, the Chair of the Board is responsible for (a) presiding at board meetings, (b) calling special meetings on an as-needed basis, (c) execution and administration of Trust policies including (i) setting the agendas for board meetings and (ii) providing information to board members in advance of each board meeting and between board meetings. The Trust believes that its Chair, the chair of the Audit Committee, the chair of the Nominating and Governance Committee, and, as an entity, the full Board, provide effective leadership that is in the best interests of the Trust and each shareholder.

Board Risk Oversight

The Board has established an independent Audit Committee, an independent Nominating and Governance Committee, and an independent Valuation Committee, each with a separate chair. The Board is responsible for overseeing risk management, and the full Board regularly engages in discussions of risk management and receives compliance reports that inform its oversight of risk management from its Chief Compliance Officer at quarterly meetings and on an ad hoc basis, when and if necessary. The Audit Committee considers financial and reporting risk within its area of responsibilities. The Nominating and Governance Committee assists the Board in adopting fund governance practices and meeting certain "fund governance standards." The Valuation Committee has the authority to determine the value of the Fund's portfolio securities under the methods established by the policies and procedures of the Fund. Generally, the Board believes that its oversight of material risks is adequately maintained through the compliance-reporting chain where the Chief Compliance Officer is the primary recipient and communicator of such risk-related information.

Trustee Qualifications

Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience, (ii) qualifications, (iii) attributes, and (iv) skills. Mary Moran Zeven, was the Director of the Graduate Program in Banking and Financial Law, at Boston University School of Law from 2019 to 2022. From 2000 to 2019. Ms. Moran Zeven served as Senior Vice President and Senior Managing Counsel of State Street Bank and Trust Company, a custodial bank, fund administrator and accounting agent. In that role, she served as the global head of State Street's Sector Solutions Legal Department, the head of its US Fund Administration Legal Department, and the head of several other legal departments supporting State Street's Global Services Americas business. A graduate of St. John's University School of Law, she worked as a corporate lawyer at several large law firms and financial institutions in New York before joining State Street, including serving as general counsel and chief legal officer of Global Asset Management (USA) Inc.

Carrie Schoffman is the owner and founder of CPA Concierge Services. She previously served as Principal Financial Officer and Treasurer of the ICON Funds from 2013 to 2017. She also served as Assistant Vice President and Chief Compliance Officer of the ICON Funds from 2004 to 2017, as well as Chief Compliance Officer of ICON Advisers, Inc. during that period. Previously she was a staff accountant with the U.S. Securities and Exchange Commission from 2003 to 2004. She also was a Manager from 2001 to 2003 and Senior Associate/Associate from 1996 to 2001 at PricewaterhouseCoopers LLP. She obtained a degree in Public Accounting from Colorado State University and has maintained a Certified Public Accountant license. She is a member of the Colorado Society of CPAs and the American Institute of CPAs.

Clifford N. Schireson retired in 2017. Prior to that, Mr. Schireson was Director of Institutional Services from 2004 to 2017 at Brandes Investment Partners, LP, an investment advisory firm, where he also was co-head of fixed income and was a member of the fixed-income investment committee. From 1998 to 2004, he was a Managing Director at Weiss, Peck & Greer LLC specializing in fixed-income products for both taxable and municipal strategies for institutional clients. Mr. Schireson has over 20 years of experience in the investment management industry as well as 20 years of experience in the investment banking industry. Mr. Schireson holds an A.B. in Economics from Stanford University and an M.B.A. from Harvard Business School.

Each Trustee's ability to perform his duties effectively also has been enhanced by his educational background and professional training. The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes them each highly qualified.

A list of the Trustees and executive officers of the Trust and their principal occupation and other directorships over the last five years are shown below. Unless otherwise noted, the address of each Trustee and Officer is 4200 Northside Parkway, Building 4, Suite 300, Atlanta, GA 30327.

Name and Year of Birth	Position held with Funds or Trust	Length of Time Served *	Principal Occupation During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee	Other Directorships Held by Trustee During Past 5 Years

(2008-2012); Senior Associate of Fund Administration, Morgan Stanley (1999-2008)	n/a	n/a

* The term of office for each Trustee and officer listed above will continue indefinitely.

Board Committees

The Board has established three standing committees: the Audit Committee and the Nominating and Governance Committee.

Audit Committee

The Board has an Audit Committee that consists of all the Independent Trustees. The Audit Committee's responsibilities include: (i) recommending to the Board the selection, retention or termination of the Trust's independent auditors; (ii) reviewing with the independent auditors the scope, performance and anticipated cost of their audit; (iii) discussing with the independent auditors certain matters relating to the Trust's financial statements, including any adjustment to such financial statements recommended by such independent auditors, or any other results of any audit; (iv) reviewing on a periodic basis a formal written statement from the independent auditors with respect to their independence, discussing with the independent auditors any relationships or services disclosed in the statement that may impact the objectivity and independence of the Trust's independent auditors and recommending that the Board take appropriate action in response thereto to satisfy itself of the auditor's independence; and (v) considering the comments of the independent auditors and management's responses thereto with respect to the quality and adequacy of the Trust's accounting and financial reporting policies and practices and internal controls. The Audit Committee operates pursuant to an Audit Committee Charter.

Nominating and Governance Committee

The Board has a Nominating and Governance Committee that consists of all the Independent Trustees. The Nominating and Governance Committee assists the Board in adopting fund governance practices and meeting certain fund governance standards. The Nominating and Governance Committee operates pursuant to a Nominating and Governance Committee

Charter. The Nominating and Governance Committee is responsible for seeking and reviewing nominee candidates for consideration as Independent Trustees as is from time to time considered necessary or appropriate. The Nominating and Governance Committee generally will consider shareholder nominees. The Nominating and Governance Committee reviews all nominations of potential trustees made by Fund management and by Fund shareholders, which includes all information relating to the recommended nominees that is required to be disclosed in solicitations or proxy statements for the election of directors, including without limitation the biographical information and the qualifications of the proposed nominees. Nomination submissions must be accompanied by a written consent of the individual to stand for election if nominated by the Board and to serve if elected by the shareholders, and such additional information must be provided regarding the recommended nominee as reasonably requested by the Nominating and Governance Committee. The Nominating and Governance Committee meets to consider nominees as is necessary or appropriate. The Nominating and Governance Committee is also responsible for reviewing and setting Independent Trustee compensation from time to time when considered necessary or appropriate.

Trustee Ownership

The table below shows for each Trustee, the amount of Fund equity securities beneficially owned by each Trustee, and the aggregate value of all investments in equity securities of the Fund complex, as of the date of this SAI, and stated as one of the following ranges: A = None; B = \$1-\$10,000; C = \$10,001-\$50,000; D = \$50,001-\$100,000; and E = over \$100,000.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies
Mary Zeven	A	A
Carrie Schoffman	A	A
Clifford Schireson	A	A

Compensation

Each "non-interested" receives an annual retainer of \$15,000, paid quarterly, as well as reimbursement for any reasonable expenses incurred attending the meetings. The Chair of the Board receives an additional \$3,500 annually. The Chair of each of the Audit Committee and the Nominating Committee and Governance Committee receives an additional \$2,500 annually. None of the executive officers, with the exception of the Chief Compliance Officer, receive compensation from the Fund. Certain Trustees and officers of the Fund are also officers of the Adviser and are not paid by the Fund for serving in such capacities.

The table below details the amount of compensation the Trustees are estimated to receive from the Trust during the next fiscal year. The Trust does not have a bonus, profit sharing, pension or retirement plan.

Independent Trustees				
Name of Trustee	Aggregate Compensation from Trust	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from Fund Complex Paid to Directors
Mary Zeven	\$18,500	None	None	\$18,500
Carrie Schoffman	\$17,500	None	None	\$17,500
Clifford Schireson	\$17,500	None	None	\$17,500

CODES OF ETHICS

Each of the Fund, the Adviser, and the Fund's Distributor, has adopted a code of ethics (the "Code of Ethics") under Rule 17j-1 of the 1940 Act. Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by covered personnel in their personal accounts. The Codes of Ethics permit covered personnel, subject to certain restrictions, to invest in securities, including securities that may be purchased or held by the Fund. Covered personnel may engage in personal securities transactions, subject to certain restrictions, and are required to report their personal securities transactions for monitoring purposes. The Code of Ethics for the Adviser is included as exhibits to the registration statement of which the Statement of Additional Information is incorporated. In addition, the Code of Ethics of the Adviser is available on the EDGAR database on the SEC's website at <http://www.sec.gov>. Shareholders may also obtain copies of the Code of Ethics of the Adviser, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov.

PROXY VOTING POLICIES AND PROCEDURES

The Board has adopted Proxy Voting Policies and Procedures ("Proxy Policies") on behalf of the Trust, which delegate the responsibility for voting proxies to the Adviser, subject to the Board's continuing oversight. The Proxy Policies require that the Adviser vote proxies received in a manner consistent with the best interests of the Fund and shareholders. The Proxy Policies also require the Adviser to present to the Board, at least annually, the proxy voting policies of the Adviser and a record of each proxy voted by the Adviser on behalf of the Fund, including a report on the resolution of all proxies identified by the Adviser involving a conflict of interest.

Where a proxy proposal raises a material conflict between the interests of the Adviser, any affiliated person(s) of the Adviser, the Distributor or any affiliated person of the Distributor, or any affiliated person of the Trust and the Fund's or its shareholder's interests, the Adviser will resolve the conflict by voting in accordance with the policy guidelines or at the Trust's directive using the recommendation of an independent third party. If the third party's recommendations are not received in a timely fashion, the designated party will abstain from voting. A copy of the Adviser's proxy voting policy is attached hereto as Appendix A.

Information regarding how the Fund voted proxies relating to portfolio securities held by the Fund during the most recent 12-month period ending June 30 will be available (1) without charge, upon request, by calling the Fund toll-free at 833-442-7381 or on the Fund's website at www.sardisfunds.com; and (2) on the SEC's website at <http://www.sec.gov>. In addition, a copy of the Fund's proxy voting policies and procedures are also available by calling toll-free at 833-442-7381 and will be sent within three business days of receipt of a request.

CONTROL PERSONS AND PRINCIPAL HOLDERS

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of a fund. A control person is one who owns, either directly or indirectly more than 25% of the voting securities of a company or acknowledges the existence of control. A control person may be able to determine the outcome of a matter put to a shareholder vote. As of the date of this SAI, none of the Trustees and officers owned shares of the Fund. As of the date of this SAI, the name, address and percentage of ownership of each entity or person that owned of record or beneficially 5% or more of the outstanding Class I shares of the Fund are as follows:

Name and Address	Percentage	Type of Ownership
Colin McBurnette 4200 Northside Parkway	100%	Beneficial

Building 4, Suite 300 Atlanta, GA 30327

INVESTMENT ADVISORY AND OTHER SERVICES

The Adviser

Sardis Group, LLC, located at 4200 Northside Parkway, Building 4, Suite 300, Atlanta, GA 30327, serves as the Fund's investment adviser. The Adviser is a Delaware limited liability company and has been registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act") since 2024.

Under the general supervision of the Board, the Adviser will carry out the investment and reinvestment of the net assets of the Fund, will furnish continuously an investment program with respect to the Fund, will determine which securities should be purchased, sold or exchanged. In addition, the Adviser will supervise and provide oversight of the Fund's service providers. The Adviser will furnish to the Fund office facilities, equipment and personnel for servicing the management of the Fund. The Adviser will compensate all Adviser personnel who provide services to the Fund. In return for these services, facilities and payments, the Fund has agreed to pay the Adviser as compensation under the Investment Advisory Agreement a monthly management fee computed at the annual rate of 1.25% of the daily net assets. The Adviser may employ research services and service providers to assist in the Adviser's market analysis and investment selection.

Until April 30, 2026, the Adviser and the Fund have entered into an expense limitation and reimbursement agreement (the "Temporary Expense Limitation Agreement") under which the Adviser has contractually agreed to waive its fees and to pay or absorb the ordinary operating expenses of the Fund (exclusive of any taxes, interest, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses, such as litigation or reorganization costs, but inclusive of organizational costs and offering costs), to the extent that such expenses exceed 1.50% per annum of the Fund's average daily net assets attributable to Class I shares (the "Temporary Expense Limitation"). The Temporary Expense Limitation Agreement will remain until April 30, 2026. After April 30, 2026, the Adviser and the Fund have entered into an expense limitation and reimbursement agreement (the "Expense Limitation Agreement") under which the Adviser has contractually agreed to waive its fees and to pay or absorb the ordinary operating expenses of the Fund (exclusive of any taxes, interest, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses, such as litigation or reorganization costs, but inclusive of organizational costs and offering costs), to the extent that such expenses exceed 2.00% per annum of the Fund's average daily net assets attributable to Class I shares (the "Expense Limitation"). The Expense Limitation Agreement will remain until October 31, 2027, unless and until the Board of Trustees of the Fund (the "Board" or the "Trustees") approves its modification or termination. The Fund does not anticipate that the Board will terminate the Expense Limitation Agreement during this period. The Expense Limitation Agreement may be terminated only by the Board on 60 days' written notice to the Adviser. After October 31, 2027, the Expense Limitation Agreement may be renewed at the Adviser's discretion. In consideration of the Adviser's agreement to limit the Fund's expenses, the Fund has agreed to repay the Adviser in the amount of any fees waived and Fund expenses paid or absorbed, subject to the limitations that: (1) the reimbursement for fees and expenses will be made only if payable not more than three years from the date in which they were incurred; and (2) the reimbursement may not be made if it would cause the lesser of the Temporary Expense Limitation or Expense Limitation in place at the time of waiver or at the time of reimbursement to be exceeded.

Conflicts of Interest

The Adviser may provide investment advisory and other services, directly and through affiliates, to various entities and accounts other than the Fund ("Adviser Accounts"). The Fund has no interest in these activities. The Adviser, and the investment professionals, who on behalf of the Adviser, provide investment advisory services to the Fund, are engaged in substantial activities other than on behalf of the Fund, may have differing economic interests in respect of such activities,

and may have conflicts of interest in allocating their time and activity between the Fund and the Adviser Accounts. Such persons devote only so much time to the affairs of the Fund as in their judgment is necessary and appropriate. Set out below are practices that the Adviser follows.

Participation in Investment Opportunities

Directors, principals, officers, employees and affiliates of the Adviser may buy and sell securities or other investments for their own accounts and may have actual or potential conflicts of interest with respect to investments made on behalf of the Fund. As a result of differing trading and investment strategies or constraints, positions may be taken by directors, principals, officers, employees and affiliates of the Adviser, or by the Adviser for the Adviser Accounts, if any, that are the same as, different from or made at a different time than, positions taken for the Fund.

PORTRFOLIO MANAGERS

Colin McBurnette and Sam Dunlap are the Fund’s portfolio managers (“Portfolio Managers”) and oversee the day-to-day investment operations of the Fund. The biographical information for Mr. McBurnette and Mr. Dunlap is presented below.

Colin McBurnette is the Co-Founder and Managing Partner of Sardis Group, LLC. He was previously a Senior Portfolio Manager at Angel Oak Capital Advisors from 2012 to 2024 where he focused on security and portfolio analytics and was responsible for building and managing strategies within the residential mortgage-backed securities market. Prior to Angel Oak, Colin worked for Prodigus Capital Management where he was responsible for the acquisition and management of their distressed debt portfolio, as well as the development of their proprietary financial technology platform. Previously, Colin worked in the Real Estate Capital Markets group for Wachovia Bank and Wells Fargo where he focused on risk management for their commercial real estate REPO lines. Colin holds B.B.A. degrees in Banking & Finance and Real Estate from the Terry College of Business at the University of Georgia.

Sam Dunlap is Co-Founder and Managing Partner of Sardis Group, LLC. He was previously a Managing Director and Chief Investment Officer of the public strategies at Angel Oak Capital Advisors from 2009 to 2024. Sam began his capital markets career in 2002 and has investment experience across multiple sectors of the fixed income market. Prior to joining Angel Oak, he spent six years marketing and structuring interest rate derivatives with SunTrust Robinson Humphrey where he focused on both interest rate hedging products and interest rate linked structured notes. Before SunTrust, Sam spent two years at Wachovia in Charlotte, NC supporting the agency mortgage pass-through trading desk. Sam holds a B.A. degree in Economics from the University of Georgia.

Mr. McBurnette and Mr. Dunlap each receives a fixed salary and retirement plan benefits. Mr. McBurnette and Mr. Dunlap are also entitled to receive distributions based upon, among other things, the overall performance of the Adviser.

As of June 30, 2025, Mr. McBurnette and Mr. Dunlap were responsible for the management of the following types of accounts in addition to the Fund:

Mr. McBurnette

Other Accounts By Type	Total Number of Accounts by Account Type	Total Assets By Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	8	\$365,833,526	0	\$0

Mr. Dunlap

Other Accounts By Type	Total Number of Accounts by Account Type	Total Assets By Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	8	\$365,833,526	0	\$0

Because the Portfolio Managers may manage assets for other clients (“Client Accounts”) or may be affiliated with such Client Accounts, there may be an incentive to favor one Client Account over another, resulting in conflicts of interest. For example, affiliates of the Adviser may, directly or indirectly, receive fees from Client Accounts that are higher than the fee the Adviser receives from the Adviser. In those instances, a portfolio manager may have an incentive to favor the Client Accounts over the Fund. Notwithstanding the difference in principal investment strategies between the Fund and the Client Accounts, the Adviser has various policies and procedures that it believes are reasonably designed to address these and other conflicts of interest.

As of the date of this SAI, Mr. McBurnette and Mr. Dunlap owned the following amounts in the Fund: A = none; B = \$1–\$10,000; C = \$10,001–\$50,000; D = \$50,001–\$100,000; E = \$100,001–\$500,000; F = \$500,001–\$1,000,000; or G = over \$1,000,000.

Portfolio Manager	Dollar Range of Equity Securities Owned
Colin McBurnette	D
Sam Dunlap	A

ALLOCATION OF BROKERAGE

Specific decisions to purchase or sell securities for the Fund are made by either (i) the Portfolio Managers who are employees of the Adviser or (ii) members of the Investment Committee who are employees of the Adviser. The Adviser is authorized by the Trustees to allocate the orders placed on behalf of the Fund to brokers or dealers who may, but need not, provide research or statistical material or other services to the Fund and the Adviser for the Fund’s use. Such allocation is to be in such amounts and proportions as the Adviser may determine.

In selecting a broker or dealer to execute each particular transaction, the Adviser will take the following into consideration: execution capability, trading expertise, accuracy of execution, commission rates, reputation and integrity, fairness in resolving disputes, financial responsibility and responsiveness.

Brokers or dealers executing a portfolio transaction on behalf of the Fund may receive a commission in excess of the amount of commission another broker or dealer would have charged for executing the transaction if the Adviser determines in good faith that such commission is reasonable in relation to the value of brokerage and research services provided to the Fund. In allocating portfolio brokerage, the Adviser may select brokers or dealers who also provide brokerage, research and other services to other accounts over which the Adviser exercises investment discretion. Some of the services received as the result of Fund transactions may primarily benefit accounts other than the Fund, while services received as the result of portfolio transactions effected on behalf of those other accounts may primarily benefit the Fund.

Affiliated Party Brokerage

The Adviser and its affiliates will not purchase securities or other property from, or sell securities or other property to, the Fund, except that the Fund may in accordance with rules under the 1940 Act engage in transactions with accounts that are affiliated with the Fund as a result of common officers, directors, advisers, members, managing general partners or common control. These transactions would be effected in circumstances in which the Adviser determined that it would be appropriate for the Fund to purchase and another client to sell, or the Fund to sell and another client to purchase, the same security or instrument each on the same day.

The Adviser places its trades under a policy adopted by the Trustees pursuant to Section 17(e) and Rule 17e-1 under the 1940 Act that places limitations on the securities transactions effected through the Distributor. The policy of the Fund with respect to brokerage is reviewed by the Trustees from time to time. Because of the possibility of further regulatory developments affecting the securities exchanges and brokerage practices generally, the foregoing practices may be modified.

TAX STATUS

The following discussion is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. All shareholders should consult a qualified tax adviser regarding their investment in the Fund.

The Fund intends to qualify as regulated investment company under Subchapter M of the Code, which requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund should not be subject to federal income or excise tax on its net investment income or net capital gain, which are distributed to shareholders in accordance with the applicable timing requirements. Net investment income and net capital gain of the Fund will be computed in accordance with Section 852 of the Code. Net investment income is made up of dividends and interest less expenses. Net capital gain for a fiscal year is computed by taking into account any capital loss carryforward of the Fund.

The Fund intends to distribute all of its net investment income, any excess of net short-term capital gains over net long-term capital losses, and any excess of net long-term capital gains over net short-term capital losses in accordance with the timing requirements imposed by the Code and, therefore, should not be required to pay any federal income or excise taxes. Distributions of net investment income will be made monthly and net capital gain will be made after the end of each fiscal year, and no later than December 31 of each year. Both types of distributions will be in shares of the Fund unless a shareholder elects to receive cash.

To be treated as a regulated investment company under Subchapter M of the Code, the Fund must also (a) derive at least 90% of its gross income from dividends, interest, payments with respect to securities loans, net income from certain publicly traded partnerships and gains from the sale or other disposition of securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to the business of investing in such securities or currencies, and (b) diversify its holdings so that, at the end of each fiscal quarter, (i) at least 50% of the market value of the Fund's assets is represented by cash, U.S. government securities and securities of other regulated investment companies, and other securities (for purposes of this calculation, generally limited in respect of any one issuer, to an amount not greater than 5% of the market value of the Fund's assets and 10% of the outstanding voting securities of such issuer) and (ii) not more than 25% of the value of its assets is invested in the securities of (other than U.S. government securities or the securities of other regulated investment companies) any one issuer, two or more issuers which the Fund controls and which are determined to be engaged in the same or similar trades or businesses, or the securities of certain publicly traded partnerships.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it will be treated as a corporation for federal income tax purposes. As such, the Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of the Fund generally would not be liable for income tax on the Fund's net investment income or net realized capital gains in their

individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

The Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and capital gain under a prescribed formula contained in Section 4982 of the Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of the Fund's ordinary income for the calendar year and at least 98.2% of its capital gain net income (i.e., the excess of its capital gains over capital losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to the Fund during the preceding calendar year. Under ordinary circumstances, the Fund expects to time its distributions so as to avoid liability for this tax.

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Code.

Distributions of taxable net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to shareholders as ordinary income.

Distributions of net capital gain ("capital gain dividends") generally are taxable to shareholders as long-term capital gain, regardless of the length of time the shares of the Fund have been held by such shareholders.

A redemption of Fund shares by a shareholder will result in the recognition of taxable gain or loss in an amount equal to the difference between the amount realized and the shareholder's tax basis in his or her Fund shares. Such gain or loss is treated as a capital gain or loss if the shares are held as capital assets. However, any loss realized upon the redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as capital gain dividends during such six-month period. All or a portion of any loss realized upon the redemption of shares may be disallowed to the extent shares are purchased (including shares acquired by means of reinvested dividends) within 30 days before or after such redemption.

Distributions of taxable net investment income and net capital gain will be taxable as described above, whether received in additional cash or shares. Shareholders electing to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a share on the reinvestment date.

All distributions of taxable net investment income and net capital gain, whether received in shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to have been received by shareholders on December 31, if paid during January of the following year. Redemptions of shares may result in tax consequences (gain or loss) to the shareholder and are also subject to these reporting requirements.

Under the Code, the Fund will be required to report to the Internal Revenue Service all distributions of taxable income and capital gains as well as gross proceeds from the redemption or exchange of Fund shares, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Code, distributions of taxable net investment income and net capital gain and proceeds from the redemption or exchange of the shares of a regulated investment company may be subject to withholding of federal income tax in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

Taxation of Foreign Shareholders

Because of the fact-specific impact of the applicable U.S. tax rules and their interaction with tax treaties, a shareholder who, as to the United States, is a nonresident alien individual, a foreign trust or estate, or a foreign corporation (“foreign shareholder”) as defined in the Code are urged to consult their own tax advisor regarding the U.S. federal tax consequences of the holding, sale, exchange or other disposition of the Fund’s shares. The tax consequences to a foreign shareholder entitled to claim the benefits of an applicable tax treaty may differ from those described herein.

Generally, a foreign shareholder will be subject to U.S. federal income tax on distributions received from the Fund or upon dispositions of Shares if the Fund is “effectively connected” with a U.S. trade or business carried on by the foreign shareholder.

Income Not Effectively Connected. If the income from the Fund is not “effectively connected” with a U.S. trade or business carried on by the foreign shareholder, distributions of investment company taxable income may be subject to a U.S. tax of 30% (or lower treaty rate, except in the case of any “excess inclusion income” allocated to the foreign shareholder), which tax generally is withheld from such distributions by the Fund. All foreign shareholders should consult their tax advisors to determine the appropriate tax forms to provide to the Fund to claim a reduced rate or exemption from U.S. federal withholding taxes, and the proper completion of those forms.

Capital gain dividends and any amounts retained by the Fund that are properly reported by the Fund as undistributed capital gains will not be subject to U.S. tax at the rate of 30% (or applicable lower treaty rate) unless the foreign shareholder is a nonresident alien individual and is physically present in the United States for more than 182 days during the taxable year and meets certain other requirements.

Notwithstanding the foregoing, properly reported dividends generally are exempt from U.S. withholding tax where they (i) are paid in respect of the Fund’s “qualified net interest income” (generally, the Fund’s U.S. source interest income, other than certain contingent interest and interest from obligations of a corporation or partnership in which the Fund is at least a 10% equity holder, reduced by expenses that are allocable to such income) or (ii) are paid in respect of the Fund’s “qualified short-term capital gains” (generally, the excess of the Fund’s net short-term capital gain over the Fund’s long-term capital loss for such taxable year). However, depending on its circumstances, the Fund may report all, some or none of its potentially eligible dividends as qualified net interest income or as qualified short-term capital gains, and/or treat such dividends, in whole or in part, as ineligible for this exemption from withholding. In order to qualify for this exemption from withholding, a foreign shareholder will need to comply with applicable certification requirements relating to its non-U.S. status (including, in general, furnishing the correct IRS Form W-8). In the case of Fund shares held through an intermediary, the intermediary may withhold even if the Fund designates the payment as qualified net interest income or qualified short-term capital gain. If a repurchase of a shareholder’s shares by the Fund does not qualify for sale or exchange treatment, the shareholder may, in connection with such repurchase, be treated as having received, in whole or in part, a taxable dividend, a tax-free dividend, or capital gain, depending on (i) whether the Fund has sufficient earnings and profits to support a dividend and (ii) the shareholder’s tax basis in the relevant Fund shares repurchased. If the repurchase qualifies as a sale or exchange, the shareholder generally will realize capital gain or loss equal to the difference between the amount received in exchange for the repurchased shares and the adjusted tax basis of those shares.

Any capital gain that a foreign shareholder realizes upon a repurchase of Fund shares or otherwise upon a sale or exchange of Fund shares will ordinarily be exempt from U.S. tax unless (i) in the case of a foreign shareholder that is a nonresident alien individual, the gain is U.S. source income and such shareholder is physically present in the United States for more than 182 days during the taxable year and meets certain other requirements, or (ii) at any time during the shorter of the period during which the foreign shareholder held such Fund shares and the five-year period ending on the date of the disposition of those shares, the Fund was a “United States real property holding corporation” (as such term is defined in the Code) and the foreign shareholder actually or constructively held more than 5% of the Fund’s shares.

Income Effectively Connected. If the income from the Fund is “effectively connected” with a U.S. trade or business carried on by a foreign shareholder, then distributions of investment company taxable income and capital gain dividends, any

amounts retained by the Fund that are reported by the Fund as undistributed capital gains, and any gains realized upon the sale or exchange of Fund shares will be subject to U.S. income tax at the graduated rates applicable to U.S. citizens, residents and domestic corporations, and such taxable amounts may subject a foreign shareholder to U.S. tax filing obligations. Foreign corporate shareholders may also be subject to the branch profits tax imposed by the Code.

In the case of a foreign shareholder, the Fund may be required to withhold U.S. federal income tax from distributions and repurchase proceeds that are otherwise exempt from withholding tax (or taxable at a reduced treaty rate), unless the foreign shareholder certifies his foreign status under penalties of perjury or otherwise establishes an exemption.

FATCA. Payments to a shareholder that is either a foreign financial institution (“FFI”) or a non-financial foreign entity (“NFFE”) within the meaning of the Foreign Account Tax Compliance Act (“FATCA”) may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by a Fund and (b) certain capital gain distributions and the proceeds arising from the sale of Fund shares paid by the Fund. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. A Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

Original Issue Discount and Pay-In-Kind Securities

Current federal tax law requires the holder of a U.S. Treasury or other fixed-income zero coupon security to accrue as income each year a portion of the discount at which the security was purchased, even though the holder receives no interest payment in cash on the security during the year. In addition, pay-in-kind securities will give rise to income which is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt securities that are issued originally at a discount. Generally, the amount of the original issue discount (“OID”) is treated as interest income and is included in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. A portion of the OID includable in income with respect to certain high-yield corporate debt securities (including certain pay-in-kind securities) may be treated as a dividend for U.S. federal income tax purposes.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having market discount. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt security having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt security. Market discount generally accrues in equal daily installments. The Fund may make one or more of the elections applicable to debt securities having market discount, which could affect the character and timing of recognition of income.

Some debt securities (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having acquisition discount, or OID in the case of certain types of debt securities. Generally, the Fund will be required to include the acquisition discount, or OID, in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. The Fund may make one or more of the elections applicable to debt securities having acquisition discount, or OID, which could affect the character and timing of recognition of income.

A fund that holds the foregoing kinds of securities may be required to pay out as an income distribution each year an amount, which is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution, if any, than they would in the absence of such transactions.

Shareholders of the Fund may be subject to state and local taxes on distributions received from the Fund and on redemptions of the Fund's shares.

A brief explanation of the form and character of the distribution accompany each distribution. In January of each year the Fund issues to each shareholder a statement of the federal income tax status of all distributions.

Shareholders should consult their tax advisers about the application of federal, state and local and foreign tax law in light of their particular situation.

OTHER INFORMATION

Each share represents a proportional interest in the assets of the Fund. Each share has one vote at shareholder meetings, with fractional shares voting proportionally, on matters submitted to the vote of shareholders. There are no cumulative voting rights. Shares do not have pre-emptive or conversion or redemption provisions. In the event of a liquidation of the Fund, shareholders are entitled to share pro rata in the net assets of the Fund available for distribution to shareholders after all expenses and debts have been paid.

Shareholder Service Expenses

The Fund has adopted a "Shareholder Services Plan" with respect to its Class I shares under which the Fund may compensate financial industry professionals for providing ongoing services in respect of clients with whom they have distributed shares of the Fund. Such services may include electronic processing of client orders, electronic fund transfers between clients and the Fund, account reconciliations with the Fund's transfer agent, facilitation of electronic delivery to clients of Fund documentation, monitoring client accounts for back-up withholding and any other special tax reporting obligations, maintenance of books and records with respect to the foregoing, and such other information and liaison services as the Fund or the Adviser may reasonably request. Under the Shareholder Services Plan, the Fund, with respect to Class I shares, may incur expenses on an annual basis equal up to 0.25% of its average net assets attributable to Class I shares.

Administrator, Transfer Agent, and Accounting Agent

Ultimus Fund Solutions, LLC ("Administrator"), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, provides administration, fund accounting and transfer agency services to the Fund and supplies certain officers to the Fund, including a Principal Financial Officer pursuant to a fund services agreement between the Administrator and the Fund. For its services as administrator, transfer agent, and accounting agent, the Fund pays Administrator the greater of a minimum fee or fees based on the annual net assets of the Fund (with such minimum fees subject to an annual cost of living adjustment) plus out of pocket expenses.

Distributor

Ultimus Fund Distributors, LLC, located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, is serving as the Fund's principal underwriter and acts as the distributor of the Fund's shares on a best efforts basis, subject to various conditions. The Distributor may retain additional broker-dealers and other financial intermediaries (each a "Selling Agent") to assist in the distribution of Shares and Shares are available for purchase through these Selling Agents or directly through the Distributor. Generally, Shares are only offered to investors that are U.S. persons for U.S. federal income tax purposes.

Legal Counsel

DLA Piper LLP, 1201 West Peachtree Street, Suite 2900, Atlanta, Georgia 30309, acts as legal counsel to the Fund.

Custodian

U.S. Bank, N.A. (the “Custodian”) serves as the primary custodian of the Fund’s assets, and may maintain custody of the Fund’s assets with domestic and foreign sub-custodians (which may be banks, trust companies, securities depositories and clearing agencies) approved by the Trustees. Assets of the Fund are not held by the Adviser or commingled with the assets of other accounts other than to the extent that securities are held in the name of a custodian in a securities depository, clearing agency or omnibus customer account of such custodian. The Custodian is located at 425 Walnut Street, Cincinnati, Ohio 45202.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd. is the independent registered public accounting firm for the Fund and will audit the Fund’s financial statements. Cohen & Company, Ltd. is located at 1350 Euclid Ave., Suite 800, Cleveland, OH 44115.

Sardis Credit Opportunities Fund
Notes to the Financial Statements
As of July 2, 2025

(1) ORGANIZATION

The Sardis Credit Opportunities Fund (the “Fund”) was organized as a Delaware statutory trust on April 23, 2024, and is registered under the Investment Company Act of 1940, as amended (“1940 Act”), as a continuously offered, non-diversified, closed-end management investment company that is operated as an interval fund. Sardis Group, LLC (the “Adviser”) serves as the Fund’s investment adviser. The Fund’s investment objective is to seek total return through current income and capital appreciation. The Fund has no operations to date other than those relating to organizational matters, including the issuance of 10,000 Class I shares at \$10.00 per share to its initial investor, Colin McBurnette, a principal of the Adviser.

The Fund operates as a single operating segment. The Fund’s income, expenses, assets, and performance are regularly monitored and assessed as a whole by the Adviser, who is responsible for the oversight functions of the Fund, using the information presented in the financial statements and financial highlights.

(2) SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and as a result follows accounting and reporting guidance under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, *Financial Services – Investment Companies* (“ASC 946”). The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Share Valuation

The NAV of the Fund is determined daily, as of the close of regular trading on the NYSE (normally, 4:00 p.m. Eastern Time). The Fund’s NAV per share is calculated by dividing the value of the Fund’s total assets (the value of the securities the Fund holds plus cash or other assets, including interest accrued but not yet received), less accrued expenses of the Fund, less the Fund’s other liabilities by the total number of shares outstanding.

Federal Income Taxes

The Fund intends to qualify as a “regulated investment company” under Subchapter M of the Internal Revenue Code of 1986, as amended, and, if so qualified, will not be liable for federal corporate income taxes, provided that it distributes substantially all of its net taxable income and gains each year. Therefore, no provision of federal income taxes is required.

Organizational and Offering Costs

Organization and offering costs shall mean all third-party charges and out-of-pocket costs and expenses incurred by the Fund and the Adviser in connection with the formation of

Sardis Credit Opportunities Fund
Notes to the Financial Statements
As of July 2, 2025

the Fund, the offering of the Fund's shares, and the admission of investors in the Fund, including, without limitation, travel, legal, accounting, filing, advertising and all other expenses incurred in connection with the offer and sale of the interests in the Fund.

The Fund's offering costs of \$38,309 have been recorded as a deferred asset. These offering costs are accounted for as a deferred charge until Fund shares are offered to the public and will thereafter, be amortized to expense over twelve months on a straight-line basis. The Fund's organizational costs of \$169,242 consist primarily of costs to establish the Fund and enable it to legally conduct business. The Fund expenses organizational costs as incurred. Organizational costs incurred by the Fund will be reimbursed by the Adviser, some of which may be subject to recoupment by the Adviser, in accordance with the Fund's Expense Limitation Agreement discussed in Note 3.

(3) FEES AND TRANSACTIONS WITH RELATED PARTIES

Investment Adviser

Under the terms of the Investment Advisory Agreement between the Fund and the Adviser, the Adviser manages the Fund's investments subject to oversight by the Board. The Fund pays the Adviser a fee, which is calculated daily and paid monthly, at an annual rate of 1.25% of the average daily net assets of the Fund.

The Adviser and the Fund have entered into an expense limitation and reimbursement agreement (the "Expense Limitation Agreement") under which the Adviser has agreed contractually to waive its fees and to pay or absorb the ordinary operating expenses of the Fund (exclusive of any taxes, interest, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses, such as litigation or reorganization costs, but inclusive of organizational costs and offering costs), to the extent that they exceed 2.00% per annum of the Fund's average daily net assets attributable to Class I shares (the "Expense Limitation"). In consideration of the Adviser's agreement to limit the Fund's expenses, the Fund has agreed to repay the Adviser in the amount of any fees waived and Fund expenses paid or absorbed, subject to the limitations that: (1) the reimbursement will be made only for fees and expenses incurred not more than three years from the date in which they were incurred; and (2) the reimbursement may not be made if it would cause the lesser of the Expense Limitation in place at the time of waiver or at the time of reimbursement to be exceeded. The Expense Limitation Agreement will remain in effect, at least until October 31, 2027, unless and until the Board approves its modification or termination. This agreement may be terminated only by the Board on 60 days written notice to the Adviser. After October 31, 2027, the Expense Limitation Agreement may be renewed at the Adviser's discretion.

Administrator, Accounting Agent and Transfer Agent

Ultimus Fund Solutions, LLC ("Ultimus") provides certain administrative, accounting and transfer agency services to the Fund pursuant to a Master Services Agreement between the Fund and Ultimus (the "Master Services Agreement"). The Fund pays Ultimus fees in accordance with the agreement for such services.

Sardis Credit Opportunities Fund
Notes to the Financial Statements
As of July 2, 2025

Compliance Services

Northern Lights Compliance Services, LLC (“NLCS”), an affiliate of Ultimus, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives fees from the Funds, which are approved annually by the Board.

Distribution and Servicing

Under the terms of a Distribution Agreement with the Trust, Ultimus Fund Distributors, LLC (the “Distributor”) serves as principal underwriter to the Fund and acts as the distributor of the Fund’s shares on a reasonable efforts basis, subject to various conditions. The Distributor is a wholly-owned subsidiary of Ultimus. The Distributor is compensated by the Adviser (not the Fund) for acting as principal underwriter.

The Fund has adopted a “Shareholder Services Plan” with respect to its Class I shares under which the Fund may compensate financial industry professionals for providing ongoing services in respect of clients with whom they have distributed shares of the Fund. Such services may include electronic processing of client orders, electronic fund transfers between clients and the Fund, account reconciliations with the Fund’s transfer agent, facilitation of electronic delivery to clients of Fund documentation, monitoring client accounts for back-up withholding and any other special tax reporting obligations, maintenance of books and records with respect to the foregoing, and such other information and liaison services as the Fund or the Adviser may reasonably request. Under the Shareholder Services Plan, the Fund, with respect to Class I shares, may incur expenses on an annual basis equal up to 0.25% of its average net assets attributable to Class I shares.

Certain officers of the Trust are also employees of Ultimus and such persons are not paid by the Fund for serving in such capacities.

(4) BENEFICIAL OWNERSHIP OF FUND SHARES

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of the Fund creates a presumption of control under Section 2(a)(9) of the 1940 Act. As of July 2, 2025, Colin McBurnette, a principal of the Adviser, owned 100% of the Fund.

(5) INDEMNIFICATIONS

The Fund indemnifies the Fund’s officers and Board for certain liabilities that might arise from their performance of their duties to the Fund. Additionally, in the normal course of business the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

Notes to the Financial Statements
As of July 2, 2025**

(6) SUBSEQUENT EVENTS

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. Management has determined that there are no material events that would require disclosure in the Fund's financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholder and Board of Trustees of
Sardis Credit Opportunities Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Sardis Credit Opportunities Fund (the "Fund") as of July 2, 2025, the related statement of operations for the one day then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of July 2, 2025, the results of its operations for the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement are free of material misstatement, whether due to error or fraud.

Our audit includes performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement and confirmation of cash owned as of July 2, 2025 by correspondence with the custodian. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

We have served as the Fund's auditor since 2025.

COHEN & COMPANY, LTD.
Cleveland, Ohio

EXHIBIT A

SARDIS GROUP, LLC PROXY VOTING POLICY

Rule 206(4)-6 of the Advisors Act requires a registered investment adviser that exercises voting authority with respect to client assets to adopt a written policy reasonably designed to (i) ensure the investment adviser votes in the best interest of its clients, and (ii) addresses how the investment adviser will deal with material conflicts of interest that may arise between the investment adviser and its clients, and (iii) discloses to its clients information about such policies and procedure, and

- (i) provide, upon request, information as to how the proxies were voted.

Proxy voting is an important right of shareholders, and reasonable care and diligence must be undertaken to ensure such rights are properly and timely exercised. Sardis has adopted a written proxy voting policy, which may be amended from time to time at the sole discretion of the Firm.

In addition, Sardis may retain a third-party proxy agent to assist it in coordinating and voting proxies. If so, the CCO or designee will conduct documented initial and ongoing due diligence reviews of any proxy service firm selected to provide proxy voting guidance to the Firm. Reviews include but not limited to monitor the third-party to assure that all proxies are properly voted, review fees are appropriate, identify and evaluate any known conflicts of interest, proper disclosures are used, and appropriate records are retained.

Proxy Voting Procedures. Sardis is committed to voting all proxies in the best interests of its advisory Clients and has established procedures to identify and resolve any conflicts of interest that may arise between the Adviser and its Clients. Clients can direct Sardis to vote their proxies according to guidelines specified in the investment management agreement and may contact Sardis with questions regarding any particular proxy solicitation. When voting securities held in Client accounts, Sardis strives to resolve any conflicts of interest between the Client and its own business interests in a way that most benefits the Client. The Firm does have discretion to vote proxies on behalf of any mutual funds it advises.

When entering into an investment management agreement, each Client decides whether to grant Sardis the authority to vote proxies for account securities. Clients can revoke this authority or provide written instructions regarding specific solicitations. Clients granting Sardis proxy voting authority should ensure that Sardis receives proxy solicitation information from their custodian, while those who do not grant such authority should take steps to receive this information themselves. For accounts where Sardis has been granted proxy voting authority, voting decisions are made in accordance with its Proxy Voting Policy. This policy also governs any voting or consent rights on behalf of Client account securities, including but not limited to plans of reorganization and waivers under applicable indentures.

Voting Guidelines. For Client accounts where Sardis holds proxy voting authority (including Registered Funds), it votes proxies in a manner that it believes serves the best interests of its Clients. For all matters Sardis has identified as routine, unless otherwise instructed, Sardis will vote in accordance with the recommendation of the company's management, unless otherwise

instructed or, in Sardis's opinion, such recommendation is not in the best interests of the Client. Routine matters are typically proposed by a company's management and meet the following criteria: (i) they do not measurably change the structure, management, control or operation of the company; (ii) they do not measurably change the terms of, or fees or expenses associated with, an investment in the company; and (iii) they are consistent with customary industry standards and practices, as well as the laws of the state of incorporation applicable to the company.

Conflicts of Interest. Should a conflict of interest exist between the Firm and client accounts as to the outcome of certain proxy votes, the Firm is committed to resolving the conflict in the best interest of participating clients before it votes the proxy in question. The Firm may take the following courses of action to resolve the conflict: (a) disclose the conflict to clients and obtain consent before voting; and/or (b) engage a disinterested, qualified third party to determine how the proxy should be voted. The firm's CCO, or designee, is responsible for ensuring that all proxies are voted in a timely manner in accordance with proxy policies, that any conflicts of interest are resolved in the best interests of participating clients, and that proxy voting records are retained accordingly.

If a material conflict of interest exists, the investment team will determine whether it is appropriate to disclose the conflict to the affected clients, to give the clients an opportunity to vote the proxies themselves, or to address the voting issue through other objective means such as voting in a manner consistent with a predetermined voting policy or receiving an independent third party voting recommendation.

Recordkeeping. Sardis maintains records of its proxy votes which are available to Clients upon request. Information about how Sardis voted securities held by a Registered Fund it manages during the most recent twelve-month period ended June 30th shall be available no later than the following August 31st on the Registered Fund's website and upon request and without charge by emailing us at info@sardisgroup.com or calling us at 404-282-5552. This information will also be available on the SEC's website at <http://www.sec.gov>.

A summary of this Proxy Voting Policy and Procedures will be included in Sardis's Form ADV Part 2 and will be updated whenever these policies and procedures are updated. Clients may contact us, via mail or telephone, in order to obtain information on how the client's proxies have been voted, and to request a copy of these policies and procedures.

Sardis will maintain files relating to our proxy voting procedures in an easily accessible place. Records will be maintained and preserved for five years from the end of the fiscal year during which the last entry was made on a record, with records for the first two years kept in our offices. The Firm will also maintain a record of the voting resolution of any conflict of interest.
